FIRST ANNOUNCEMENT

The 6-th Congress of the Turkic World Mathematical Society (TWMS) Astana, Kazakhstan, 2-5 October, 2017

The Turkic World Mathematical Society (TWMS) will hold its 6-th Congress during October 2-5, 2017 in Astana on the basis of L.N. Gumilyov Eurasian National University in Kazakhstan. The aim of the Congress is to provide a forum, where scientists and mathematicians from academia and industry can meet to share ideas of latest research work in all branches of pure and applied mathematics. Established in 1999 TWMS held its first Congress in 1999 in Firat University, Elazig, Turkey, the second - in 2007 in Sakarya University, Adapazari, Turkey, the third - in 2009 in al-Faraby Kazakh National University, Almaty, Kazakhstan, the forth - in 2011 in Baku, Azerbaijan, the fifth - in 2014 on the shore of Lake Issyk-Kul in Kyrgyzstan.

The VI Congress of the Turkic World Mathematical Society will include conferences minisymposiums and workshops. The Congress will consist of plenary lectures of the Congress, plenary lectures within conferences and mini-symposiums, oral presentations and poster presentations. The list of the conferences, seminars and mini-symposiums, and the conditions of new announcements will be presented on the official website of the Congress. Selected papers of the Congress will be published in:

- "Eurasian Mathematical Journal" (Kazakhstan),
- "Eurasian Mathematical Journal of Mathematical and Computer Applications" (Kazakhstan),
- "TWMS Journal of Pure and Applied Mathematics" (Azerbaijan)
- "TWMS Journal of Applied and Engineering Mathematics" (Turkey)
- "Applied and Computational Mathematics" (Azerbaijan)

Detailed instructions for paper submission will be posted on the conference web site: http://twms-astana-2017.kz/.

Conference TOPICS include (but not limited to):

- Algebra and Mathematical Logic
- Geometry and Topology
- Analysis (with subsections)
- Differential and Integral Equations (with subsections)
- Probability Theory and Mathematical Statistics and Fuzzy Sets
- Computational Informational Technologies and Mathematical Modeling
- Optimization and Control Theory
- History and Teaching of Mathematics
